

The European School on Magnetism 2017

Dr. Yonko T. Millev
PRB Associate Editor
American Physical Society

Practical:

Refereeing a manuscript

The practical is intended as indispensable hands-on experience, related to the lecture about possible careers in scientific publishing. The participants will dive into the peer review process, which is the cornerstone of high-quality content selection and informational noise reduction. Simple guiding principles will be provided, so that actual suitable sample papers could be examined and assessed within the envisaged time frame.
