

LOT-QuantumDesign – Our instruments for your research – Benefit from our expertise

RIESNER, STEFAN

LOT-QuantumDesign GmbH, Im Tiefen See 58, 64293 Darmstadt, Germany, riesner@lot-qd.de

For over 45 years, LOT-QuantumDesign has been one of the leading European distributors of scientific instrumentation for academic and industrial research. Our product range comprises magnetometers, cryostats, scientific light sources and optics, components and systems for the life sciences, material characterization, electron microscopy, cryotechnology, spectroscopy and imaging. We are a highly customer- and service-orientated company. All product engineers have a scientific background and deeply enjoy working with scientists of all fields on the best solution for their planned experiments.
