

The European Magnetism Association (EMA)

A voice for magnetism in Europe

<http://magnetism.eu>

Purpose of the Association

EMA promotes the development of magnetism and magnetic materials in Europe. It rises the visibility and the impact of research on fundamental and applied magnetism. EMA acts as an umbrella organization for activities in magnetism in Europe, giving magnetism a strong voice in the concert of physical sciences. Specifically, EMA addresses:

- education and training in the field of magnetism
- advancement in the understanding of magnetism
- developments in magnetism related applications
- links with companies active in magnetic materials and devices
- representation of the magnetism community in science policy related affairs
- interactions with the magnetism community worldwide
- dissemination of the results of magnetism research in Europe
- advertisement of job offers in the field of magnetism in both academia and industry

Specific actions address the organization of the Joint European Magnetic Symposia (JEMS) and the European School on Magnetism (ESM).
