## FIRST, SOME FUN!

- Take a paper (like one of this)
- That is your group number! Groups have maximum 6 people, so go and find your people!
- Get together while having coffee/tea and ***ask and answer these questions:***

- What is your spirit animal? Why?*
- What was a moment during your PhD or work that made you laugh?*
- Or that left you extremely frustrated?*
- If you could have a superpower, which one would it be?*
- What do you love about your PhD or work?*
- And what you really don't like?*

And any other conversation you want to have to get to know your group!

And most importantly, have fun!

## Projects

- JEMS and ESM Sessions
  1. YORNE Session (Only for Students and Early Postdocs!)
  2. Academia and Industry: Collaboration Matters Session
- Social Media presence on Instagram (Follow us!)
- Community on Discord (Join us!)
- Collaboration with other organisations such as the International Association of Physics Students
- And many more surprises to come...
